AUTHORS PUBLISHING WITH ANS

The current U.S. copyright law, effective since January 1, 1978, increases the protection obtainable for copyrightable works. The law also provides that rights transferred to a publisher must be covered by a written agreement.

The agreement that ANS is asking authors to enter into is attached. Important rights are retained by the author, especially the right to use all or part of the author's work in future works of which he/she is the author. The author also retains all proprietary rights other than copyright, such as patent rights.

The right to grant or refuse to third parties permission to republish all or part of the author's work also is retained by the author provided that written permission is given by ANS. ANS asks, however, that other use of the material by the author or third parties be restricted until six months after publication of the material by ANS in a scheduled print-copy version of the journal.

The copyright agreement should be signed and sent to ANS headquarters. (Note that in the case of co-authors, only one author's signature is needed.) A copy of the agreement will be signed by ANS and then returned to you for your records.

We will be pleased to answer any questions you may have concerning this procedure.

Sincerely,

Rick Michal
Director, Scientific Publications

AGREEMENT ON COPYRIGHT

Certain rights under copyright to the article (MS NSE16-36R1) submitted with the full title: A HIGH-ORDER LOW-ORDER ALGORITHM WITH EXPONENTIALLY-CONVERGENT MONTE CARLO FOR THERMAL RADIATIVE TRANSFER
by SIMON R BOLDING, JIM MOREL, MATHIEW CLEVELAND (the "Assignor")

are assigned to the American Nuclear Society (ANS), effective when the article ("work") is accepted for presentation or publication in ANS, and secured by ANS registration of publication collective works of which this article will be a part.

The Assignor (author or authors) warrants that he/she has full right to make this agreement, that his/her work does not violate the rights of other persons nor infringe upon any existing copyrighted work. If copyrighted material of a third party is included, the Assignor agrees that he/she will obtain required permission for its reuse.

The Assignor retains the right to reproduce this article for his/her own use. Also, the Assignor keeps the right to use all or part of the work in future works he/she prepares—but not within six months after ANS publishes the article in a scheduled print-copy version of the journal, unless agreed to by ANS.

The Assignor also retains the right to grant to third parties permission to republish all or part of the work, provided written permission also given by ANS. Proprietary rights other than copyrights, such as patent rights, also are retained by the Assignor.

If the Assignor is acting for other authors, their rights are retained or transferred in the same manner under this agreement.

If the author(s) created this work while employed by the U.S. government or one of its contractors, and within the scope of such employment, the U.S. government is granted a nonexclusive royalty-free license to publish, republish, or reproduce the work or to allow others to reproduce this work for U.S. government purposes.
